

TEKLRN

KERAS LEVEL 23

1. Writing your own callbacks
 - Introduction
 - Setup
2. Keras callbacks overview
3. An overview of callback methods
 - Global Methods
 - Batch-level methods for training/testing/predicting
 - Epoch-level methods (training only)
 - A Basic Example
4. Usage of logs dict
5. Usage of self.model attribute
6. Examples of Keras callback applications
 - Early stopping at minimum loss
 - Learning rate scheduling
 - Built-in Keras callbacks
