

- **Writing your own callbacks**
- **Introduction**
- **Setup**
- **Keras callbacks overview**
- **An overview of callback methods**
- **Global Methods**
- **Batch-level methods for training/testing/predicting**
- **Epoch-level methods (training only)**
- **A Basic Example**
- **Usage of logs dict**
- **Usage of self.model attribute**
- **Examples of Keras callback applications**
- **Early stopping at minimum loss**
- **Learning rate scheduling**
- **Built-in Keras callbacks**
