

TEKLRN

TENSORFLOW LEVEL 2

1. Text classification with TensorFlow Hub: Movie reviews
2. Download the IMDB dataset
3. Explore the data
4. Build the model
5. Loss function and optimizer
6. Train the model
7. Evaluate the model
 - Basic regression: Predict fuel efficiency
8. The Auto MPG dataset
 - Get the data
 - Clean the data
 - Split the data into train and test
 - Inspect the data
9. Split features from labels
10. Normalize the data
11. The model
 - Build the model
 - Inspect the model
 - Train the model
12. Make predictions
