

- **Classes (C#)**
- **Reference types**
- **Declaring Classes**
- **Creating objects**
- **Class inheritance**
- **Example**
- **Objects**
- **Struct Instances vs. Class Instances**
- **Object Identity vs. Value Equality**
- **Inheritance**
- **Abstract and virtual methods**
- **Abstract base classes**
- **Interfaces**
- **Preventing further derivation**
- **Derived class hiding of base class members**
