

- **Save and load a model using a distribution strategy**
- **Overview**
- **Save and load the model**
- **The Keras APIs**
- **Restore the model without `tf.distribute.Strategy`:**
- **The `tf.saved_model` APIs**
- **Which API should I use?**
- **Caveats**
- **Distributed Input**
- **Distributed Datasets**
- **`tf.distribute.Strategy.experimental_distribute_dataset`**
- **`tf.distribute.Strategy.experimental_distribute_datasets_from_function`**
- **Sharding**
- **Prefetching**
- **Distributed Iterators**
- **Partial Batches**
- **Caveats**
