

TEKLRN

C# LEVEL 45

1. Generics
 - Generics overview
2. Generic type parameters
 - Type parameter naming guidelines
3. Constraints on type parameters
 - Why use constraints
4. Constraining multiple parameters
5. Unbounded type parameters
6. Type parameters as constraints
 - NotNull constraint
 - Unmanaged constraint
 - Delegate constraints
 - Enum constraints
7. Generic Classes
8. Generic Interfaces
9. Generic Methods
10. Indexers
11. Expression Body Definitions
 - Indexers Overview
 - Using indexers
 - Example
12. Generics and Arrays
 - Generic Delegates
 - Differences Between C++ Templates and C# Generics
 - Differences Between C++ Templates and C# Generics
13. Generics and Reflection
14. Generics and Attributes
