

- **Multi-worker training with Keras**
- **Overview**
- **Setup**
- **Preparing dataset**
- **Build the Keras model**
- **Multi-worker Configuration**
- **Choose the right strategy**
- **Train the model with MultiWorkerMirroredStrategy**
- **Dataset sharding and batch size**
- **Fault tolerance**
- **Multi-worker training with Estimator**
- **Input function**
- **Multi-worker configuration**
- **Define the model**
- **MultiWorkerMirroredStrategy**
- **Train and evaluate the model**
- **Optimize training performance**
- **Other code examples**
