

## **TEKLRN**

### **C LEVEL 11**

1. Expression Evaluation (C)
2. Side Effects
3. C Sequence Points
4. C Operators
5. Precedence and order of evaluation
6. Precedence and associativity of C operators
  - Examples
7. Usual Arithmetic Conversions
8. Postfix Operators
9. One-Dimensional Arrays
10. Multidimensional Arrays (C)
11. Function Call (C)
12. Structure and Union Members
13. C Postfix Increment and Decrement Operators
14. C Unary Operators
  - Syntax
15. Prefix Increment and Decrement Operators
16. Indirection and Address-of Operators
17. Unary Arithmetic Operators
18. sizeof Operator (C)
19. Cast Operators
