

## TEKLRN

### DOCKER LEVEL 42

1. About storage drivers
  - Images and layers
  - Container and layers
  - Container size on disk
2. The copy-on-write (CoW) strategy
3. Sharing promotes smaller images
4. Copying makes containers efficient
5. Docker storage drivers
  - Supported storage drivers per Linux distribution
  - Supported backing filesystems
  - Other considerations
6. Suitability for your workload
7. Shared storage systems and the storage driver
8. Stability
9. Test with your own workloads
10. Check your current storage driver
