

## TEKLRN

### C LEVEL 20

1. Preprocessor
2. Experimental preprocessor overview
3. Phases of translation
4. Preprocessor directives
  - `#define` directive (C/C++)
  - `#error` directive (C/C++)
  - `#if`, `#elif`, `#else`, and `#endif` directives (C/C++)
  - `#ifdef` and `#ifndef` directives (C/C++)
  - `#import` directive (C++)
  - `#import` attributes (C++)
  - `auto_rename`
  - `auto_search`
  - `embedded_idl`
  - `exclude` (`#import`)
  - `high_method_prefix`
  - `high_property_prefixes`
  - `implementation_only`
  - `include()`
  - `inject_statement`
  - `named_guids`
  - `no_auto_exclude`
  - `no_dual_interfaces`
  - `no_implementation`
  - `no_namespace`
  - `no_registry`
  - `no_search_namespace`
  - `no_smart_pointers`
  - `raw_dispinterfaces`
  - `raw_interfaces_only`
  - `raw_method_prefix`
  - `raw_native_types`
  - `raw_property_prefixes`
  - `rename` (`#import`)
  - `rename_namespace`
  - `rename_search_namespace`
  - `tlbid`
  - `#include` directive (C/C++)
  - `#line` directive (C/C++)

- Null directive
  - #undef directive (C/C++)
5. #using directive (C++/CLI)
