**TEKLRN**

HADOOP LEVEL 10

1. Advanced MapReduce Techniques
   - Simple, Advanced and in-Between
   - Joins
   - Map-side versus Reduce-side Joins
   - Matching Account and Sales information

2. Reduce side joins using Multiple Inputs
   - DataJoinMapper and TaggedMapperOutput

3. Implementing Map Side Joins
   - Using Distributed Cache
   - Pruning data to fit in the cache
   - Using a data representation instead of Raw Data
   - Using multiple mappers
