TEKLRN

C LEVEL 17

1. Characters

2. ASCII character set

3. Multibyte characters

4. Bits per character

5. Character sets1

6. Unrepresented character constants

7. Wide characters

8. Converting multibyte characters

9. Range of char values

10. Integers

11. Range of integer values

12. Demotion of integers

13. Signed bitwise operations

14. Remainders

15. Right shifts

16. Floating-point math

17. Values

18. Casting integers to floating-point values

19. Truncation of floating-point values

20. Arrays and pointers

21. Largest array size

22. Pointer subtraction

23. Registers: Availability of Registers
