TEKLRN

SPRING LEVEL 10

1. Spring Expression Language (SpEL)
   - Evaluation
   - Understanding EvaluationContext

2. Type Conversion
   - Parser Configuration
3. SpEL Compilation
4. Compiler Configuration
5. Compiler Limitations
6. Expressions in Bean Definitions
7. Annotation Configuration
8. Language Reference
9. Literal Expressions
10. Properties, Arrays, Lists, Maps, and Indexers
11. Inline Lists
12. Inline Maps
13. Array Construction
14. Methods
15. Operators
16. Logical Operators
17. Mathematical Operators
18. The Assignment Operator
    Types
    - Constructors
    - Variables
    - Functions
    - Bean References
    - Ternary Operator (If-Then-Else)
    - The Elvis Operator
    - Safe Navigation Operator
    - Collection Selection
    - Collection Projection
19. Expression templating
