TEKLRN

TENSORFLOW LEVEL 26

1. CycleGAN
   - Set up the input pipeline

2. Input Pipeline

3. Import and reuse the Pix2Pix models

4. Loss functions

5. Checkpoints

6. Training

7. Generate using test dataset

8. Adversarial example using FGSM

9. What is an adversarial example?

10. Fast gradient sign method

11. Original image

12. Create the adversarial image

13. Implementing fast gradient sign method
